TITLE	Student Enrollment in Geoscience Departments. 1982-1983.
INSTITUTION	American Geological Inst., Washington, D.C.
SPONS AGENCY	Geological Survey (Dept. of Interior), Reston, Va.
PUB DATE	[83]
NOTE	95p.
AVAILABLE FROM	Additional copies of this report are available upon request from EEO-U.S.G.S., Stop 116, National Center, Reston, VA 22092 (while supplies last).
PUB TYPE	Reports - Research/Technical (143)
EDRS PRICE	MF01/PC04 Plus Postage.
DESCRIPTORS	*College Science; Engineering; *Enrollment; *Enrollment Trends; Environmental Education; *Geology; *Geophysics; Higher Education; Minority Groups; Ocean Engineering; *Oceanography; Paleontology; Science Departments; Science Education; Soil Science
IDENTIFIERS	Canada; Hydrology; Mineralogy; United States

ABSTRACT

Presented in table format are student enrollment data for geoscience disciplines at colleges and universities in the United States and Canada. Subfields for both countries include: geology; geophysics; oceanography; marine science; geological engineering; geophysical engineering; geochemistry; hydrology; mineralogy; paleontology; soil science; environmental science; and general earth science. Earth science teaching is also included for the United States. Data are presented for each of these disciplines alphabetically by institution (and alphabetically by state for the United States). Sections providing summary data and minority information are also included. Among the findings reported for the 1982-83 school year are those indicating that the total number of geoscience students at all academic levels in the United States (47,301) increased 6.4 percent over the previous academic year, that total male enrollment rose 6.7 percent and total female enrollment rose 5.5 percent over the 1981-82 figure, that women constituted 23.9 percent of all enrollments and earned 23.9 percent of all degrees, that minorities made up 2.6 percent of enrollees and earned 2.1 percent of all geoscience degrees in 1981-82, that enrollment increased at all three degree levels between 1981-82 and 1982-83, and that the 36,839 U.S. undergraduate majors represented a 7.43 percent increase over the previous year. FOREWORD

"Student Enrollment in Geoscience Departments, 1982-1983" is the twelfth of a series prepared by the American Geological Institute for the U.S. Geological Survey. This year, 85% of the 560 degree granting university/college departments, from which enrollment and graduate information was requested, returned their updated computer printouts.

All of the institutions with departments queried are shown under the Geology heading which serves as a "Master List." Those departments with no enrollment in Geology but with entries under one or more than one of the remaining subfields are indicated by dashes.

For both the U.S. and Canada, numerous tables provide total student enrollment and total degrees awarded data in each subfield of the geosciences, for all subfields combined, and totals and percent rank by subfield. Cumulative tables on pages 59-66 show student enrollment for each subfield for each year since 1971; the years listed signify the last semester of an academic year -- thus 1983 denotes 1982-1983.

Also, additional tables provide comparative information on U.S. minority enrollment and graduate numbers at each academic level. Finally, under each of the four minority groupings, the numbers of U.S. minority geoscience students attending reporting departments appear alphabetically by state and by academic level on pages 71-89.

The American Geological Institute expresses its appreciation to all of the geoscience departments which contributed to this report.

TABLE OF CONTENTS

STUDENT ENROLLMENT BY UNIVERSITY/COLLEGE, U.S.

Geology 1
Geophysics 20
Oceanography, Marine Science 24
Geological Engineering 27
Geophysical Engineering 30
Geochemistry 31
Hydrology 34
Mineralogy 36
Paleontology 38
Soil Science 40
Environmental Science 41
Earth Science, Teaching 44
Earth Science, General 48

STUDENT ENROLLMENT BY UNIVERSITY/COLLEGE, CANADA

Geology 51
Geophysics 52
Oceanography, Marine Science 53
Geological Engineering 53
Geophysical Engineering 54
Geochemistry 54
Hydrology 54
Mineralogy 55
Paleontology 55
Soil Science 55
Environmental Science 55
Earth Science, General 56

TOTALS AND SUMMARIES

Total enrollment in each subfield, U.S., Canada 57
Total degrees awarded in each subfield, U.S., Canada 58
Total enrollment in each subfield, 1971-1983, U.S. 59
Total enrollment in each subfield, 1971-1983, Canada 63
Total enrollment in all subfields, U.S., Canada 67
Total degrees awarded, all subfields, U.S., Canada 67
Total and % rank by subfield, U.S. 68
Total and % rank by subfield, Canada 68

MINORITY INFORMATION

Minorities as percent of total student population 69
Percentages within groups at each academic level 69
Percentage gain or loss over two successive academic years . 70
Location of minority students 71
